FINAL PROPOSAL

Title: Timun & Sambal : Nasi Lemak
Section: MC113
Members: 1051102734 Muhammad Faiz bin Abu Bakar
1051105814 Illyana Muzliza Muzzaffa
1051102733 Mohamad farhan bin tajuddin
Year: 2006, Trimester 2

TOPIC

Our topic is “nasi lemak”, the ever popular dish in Malaysia among all races and age, especially teenagers and young adults.

GROUP: TIMUN & SAMBAL

The name “Timun & Sambal” was chosen among several topic-related names that were listed down when the project was assigned to us. The three of us agreed on the group name for we thought it was creative and a suitable name to be in relate with the topic we’re doing on.

The name was suggested by none other than our own group leader, Faiz. Nasi lemak, after all, does associate with two of the main ingredients; timun and sambal (cucumber and sambal).

BLOG

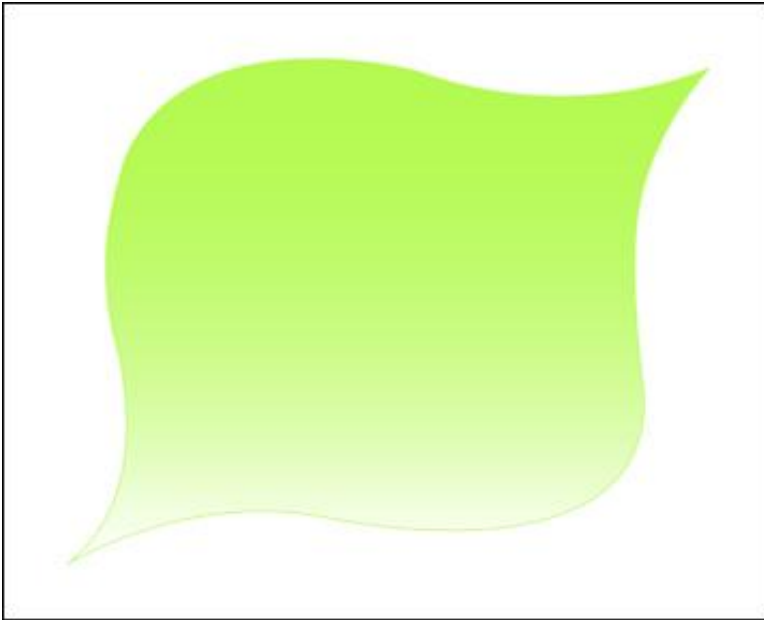

Blog URL: <http://timun-n-sambal.livejournal.com/>

The progresses of our work on the interactive application final project were documented in our blog.

Basic Design

Our design intro is based on the banana leaf theme and colours. The structure itself follows the basic colours of the nasi lemak itself.

Colour theme

Our colour theme is based on the nasi lemak and its associates.

Graphics

Our Graphics follows the vector design, whereby colours are in gradient form and mostly flat. All the graphics were hand drawn and photographed

All the menu's and link will be briefed as follows:

Introduction movie

- movies were inserted as the intro
- It was scripted to behave randomly
- Skip button added

Intro will start off with the timun and sambal logo followed by a sound effect and later the movie/ animation

Main menu

The main menu follows a colour scheme of the “daun pisang” whereby the colour green is maintained as the background.

Design

- The actual nasi lemak is the menu
- Link are defined by popup boxes
- A background sound is applied
- Sound control buttons
- Logo
- Tagline
- X button (exit)

Scripting

- The links are joined with the animation of the nasi lemak elements
- The links are as follows:

The egg – introduction

The chicken – origin

The cucumber- ingredients

The anchovies – movies

The peanuts – photo gallery

The sambal – contacts

Logo – replay introduction movie manually

X button- exit dialogue

Overall

- All the links and the buttons follow the behaviors of the mouse element, on entering, within, and rollouts
- Background sound will loop and maintained throughout the change of sequences

Introduction

Link from the egg graphic, the introduction sequence is the pop out of the banana leaf menu where. It contains 3 links. It contains information in each pages accordingly; what is nasi lemak, why, objective and mission.

Graphic

Page1

- A brief intro on nasi lemak
- A sample picture
- The slide in box of the "banana leaf" like menu

Page2

- Why we chose nasi lemak text
- Some box dialogue/ menu

Page3

- Objectives and mission text
- Same box dialogue/ menu

Scripting

Page1

- Picture links changes after clicking contains 6 pictures
- Page buttons
- X button (exit)

Page2

- Text
- No graphics
- Page links
- X button (exit)

Page3

- Text
- No graphics
- Page links
- X button (exit)

Overall

- Sound effects couldn't be applied as it crashes the program and projector
- All links has a mouse rollover in and out stage. Enter will change into a hand and goes out will be changed into normal cursor

Overall

- No obvious scripts, just simple behaviors and graphics

Ingredients

Linked by the cucumber graphic. The ingredient sequence consists of 3 links Ingredient intro, Recipe, and Game. The ingredient intro consists of pictures explaining what is needed to produce the nasi lemak. The recipe page shows the recipe for the nasi lemak. The game features a drag and drop system.

Graphics

Page1

- X button
- 8 pictures/sample next and back button
- Page buttons

Page2

- Recipe paper ½
- X button
- nasi lemak
- Page buttons

Page3

- Simple vectorized nasi lemak picture/ graphics
- Scattered ingredients
- Done button
- Reset buttons
- Instructions

Scripting

Page1

- Mouse rollovers
- Picture changes on mouse click
- Pages button link
- X button

Page2

- Back and next for recipe page
- Normal menu

Page3

- Done / congratulations for replay
- Rest to rearrange the graphics
- Instructions rollover
- Normal menu
-

Overall

- All the graphics are based on the vector art
- Scripting are from modified behaviors
- normal menu follows
- colour scheme – light green

Video survey

Linked from the anchovies graphic. It consists of 1 page with numerous, interactivities.

Link are elaborated accordingly.

Graphics

- 4 video link starter
- Movie control buttons
- Picture gallery for different videos
- Description text x button

Scripting

- 1st picture links to arah's video , 2nd PICTURE LINKS TO Azwan's video , 3rd picture links to Hakim's video , 4th links to Nazri's video
- Movie play ,stop and pause controls
- Picture gallery click for each video link
- Rollover mouse
- X button (x button to return to main menu)
- Normal menu applies

Movie

- Subtitled and edited to English

Overall

- The movies page follows the same colour scheme
- Has the basic menu
- No pages
- All link shown o one simple menu

Photo gallery
